OUR STORY

When my niece Sarah Faith was four years old she was like many other four-year old little girls, she was full of life, adventurous and extremely outgoing. One afternoon she returned home from school and her whole demeanor had changed. Her mother and I had attributed it to a bad day at school, but later that evening Sarah Faith revealed to us that she was told by one of her classmates that if she wanted to play with a certain group of kids she would have to change her hair to look like theirs. Perplexed and confused I asked Sarah what that meant, she explained to me that her hair was not good enough and the texture was not like everybody else's in that group which made her very sad. When I saw the hurt in my nieces eyes I was determined to do something about it.

What Our Clients Have to Say

I've been working with Social Style House for about 8 months now. I hired them (from an Instagram ad) to handle my Instagram account, Facebook and Instagram ads, and as support for my online launches.

Jake could not be more accommodating in their efforts to get the voice and brand of my business dialed in to my satisfaction.

His ads have tripled the size of my Instagram following, and helped me generate more than six figures of additional revenue.

Highly recommend!

DAVINA FREDERICK, ESQ., WEALTHY WOMAN LAWYER, LLC.

Working with Social Style House to get my website and social media pages revamped has been an absolute delight.

After visiting their website and easily selecting the services I needed, I reached out and received communication almost immediately. From there, we had a discussion, and the information and pictures I wanted to be included were provided.

The final website was exactly what I was looking for and the daily social media posts. I received more followers and interactions on social media based on the great posts/information provided.

I would definitely recommend their services to anyone who needs a new or revamped website and their social media pages managed with relevant information that helps grow your business.

ANNIKA T. – DEFINED INTERIOR SPACES, LLC

Jake and his team are the best!

Our site has never looked better, plus he helped us get some real traction through our social and google campaigns. Not to mention that he's incredibly responsive, accommodating and available for last minute meetings.

We would highly recommend Jake and Social Style House for any DTC e-commerce business looking for website design, social media content and/or Google marketing.

CRISTINA B. - RENEU EARTH

I could not be happier with the final version of our website! I partnered with Jake throughout the entire process, and he was incredibly communicative, responsive and open to any and all suggestions. He was able to take my ideas and transform them into a reality. There was no detail too small for him to thoughtfully execute. No request was too difficult or annoying! I have high attention to detail, and Jake was always open to making edits and changes to the layout, etc.

He is so talented, and I am thrilled with the outcome. Jake has stayed on to help with edits, SEO, and hosting now that the website is launched. He is incredibly responsive to any updates or issues. He completes requests in 24 hours or less. This gives me such peace of mind as the website is one of the main sources of communication to our clients. If you are hoping for someone to partner with you in the creation, execution, and care of your website, Jake is your guy!

“It feels amazing to find a company that truly understands your brand and vision. Social Style House is hardworking, professional, and fabulous at what they do! ”

JACQUI, EYE OF LOVE

I reached out to Social Style House when I realized I had too much to do everyday to try and tackle the marketing myself and needed to hire professionals. Jake and the team have been amazing.

They are incredibly helpful and communicative and full of creative strategies to increase awareness and sales for our brand. They are available to chat and walk me through our strategy and answer any questions 24/7 which I truly appreciate.

Social Style House has built us a beautiful website that user friendly, professional and functional, taken on-brand photos, grown and engaged our audience on instagram, and created digital ad campaigns and targeted relevant audiences to drive traffic to our website, in addition to explaining things and collaborating on ideas each step of the way.

Thanks guys! Vive would not be where it is today without you!

VIVE SNACKS

The Social Style House team spent some time before engaging with us to really understand our local competition and what we needed to do to get the competitive edge. They spent a lot of time understanding our business model, target demographic, and end goal.

They was able to pinpoint our audience and create an attractive offer people would take to. Honestly, their strategy worked better than we thought it would. They created a high converting Facebook advertising campaign and funnel and brought in over 155 leads within the first 4 months.

We had so many leads, it was hard to handle, so they also created a follow up system to get them through the door. Leads are great, but you've got to know what to do with them! SSH has made a huge impact in our business, especially in the slow months. If you are on the fence about whether to invest in Social Style House taking over your lead generation, it is well worth it. We highly recommend.

We would not be off the ground it wasn't for the exceptional and talented team at Social Style House.

From our first conversation, they understood the vision we wanted for our website and social pages and deployed in an efficient, effective and creative manner.

I highly recommend using the team to build your site, create a logo and manage your social media. Creative and Productive is how we like to describe ourselves at fabu, and that is how I would describe Social Style House as well.

FABU EVENTS

As an entrepreneur I need to have a team behind me that cares about my product as much as I do. I have always been extremely cautious about hiring, yet I've still gone through several agencies. With other agencies I felt like another cog in their wheel, and they both fell flat on execution. It is hard to find an agency with real-world success stories, or an agency that retains its customers.

SSH has the winning formula. They bring energy, strategy, style and execution. They want to see success as much as I do. They cater marketing efforts to my brand and my customers and don't have a one-strategy-for-all mentality. It's little nuances that make all the difference in the world. I've spent 20+ years in ecommerce and know a good team, I have complete confidence in their ability, and am grateful to have found SSH.

THE ORIGINAL STRETCHLACE

Jake and his team go above-and-beyond to really help me with my marketing needs. I don't think i could have found this relationship with anybody else. I really feel like they are part of my team. They're constantly giving me input on how to make things better and they are extremely accessible...Through his work we have increased our followers, increased our conversions, and increased our sales.

CRAFTED TASTE COCKTAILS

I began my journey with Social Style House 18 months ago as I launched my new career in real estate. I wasn't sure of what I might need for IG, and I was a bit foggy on how to put all the elements together for the ideal brand identity. I just knew that I wanted to make an educated and elegant statement within the highly competitive LA market. With our first meeting I could see that Social Style House had a broad menu of strategies to increase my brand's awareness and grow my business.

The team at Social Style House has advised and managed every aspect of my brand and has been an integral part of my success. Not only have they taken my IG account from just 300 to more than 35k followers they have also:

- managed video production and photo shoots
- guided both the development and placement of ads on FB and IG
- Generated tons of leads for prospective buyers- handled the design and content for the blog on my website
- increased the brand awareness for my real estate business in Los Angeles and around the world.

Social Style House has embraced every project for my business with great energy and enthusiasm. They produce high quality work and are true professionals. I look forward to working with them for many years.

DENA BURTON HOMES

I reached out to Social Style House because I've heard of their reputation and heard how they've helped other real estate entrepreneurs grow their business just like how they're growing mine. My followers have increased 50% since we started a month ago, and they know how to target the right demographic with their digital ad campaigns. They organized an entire video shoot to rebrand my business and all I can say is thank you thank you thank you.

If you're looking or considering hiring someone to manage your social media and grow your business, you can't go wrong with the team at Social Style House.

They come highly recommended!
